

DANIEL ANDERSON

Google Cloud Developer Expert | Cloud Security | AI Solutions

+1-(234)-555-1234 @ help@enhancv.com linkedin.com GitHub San Antonio, Texas

SUMMARY

With over 9 years of expertise in Google Cloud technologies, proficient in architecting secure and scalable applications. Highly skilled in team collaboration and leveraging Google tools to deliver significant improvements for clients. A career highlight includes increasing application efficiency by 35% through innovative cloud-based solutions.

EXPERIENCE

Google Cloud Solutions Architect

Innovative Cloud Solutions

- 01/2025 - Present Austin, TX
- Spearheaded the deployment of a cloud-native application architecture, boosting client SLA adherence by over 40%.
 - Collaborated with cross-functional teams to engineer scalable solutions, leading to a 30% reduction in latency times.
 - Mentored 10+ junior developers, refining their proficiency in Google Kubernetes Engine and best practices.
 - Streamlined cloud security protocols, resulting in a 25% increase in data protection compliance rates.
 - Facilitated multiple workshops on Google Cloud technologies, elevating team capabilities by 45%.

Senior Google Cloud Engineer

CloudTech Innovations

- 08/2019 - 12/2024 Houston, TX
- Orchestrated the migration of legacy systems to Google Cloud Platform, enhancing system performance by 50%.
 - Implemented containerized applications using Docker, achieving a 20% improvement in deployment efficiency.
 - Conducted training sessions to enhance team knowledge of Google App Engine, fostering a collaborative learning culture.
 - Successfully led a team of 5 engineers in delivering a critical cloud-based application, meeting tight deadlines.

Cloud Application Developer

TechSphere Solutions

- 06/2017 - 07/2019 San Antonio, TX
- Developed secure cloud applications, contributing to a 30% reduction in response times for client applications.
 - Utilized Terraform for infrastructure management, decreasing service setup times by 15%.
 - Collaborated effectively with design and PM teams to ensure client requirements were precisely met and exceeded.
 - Provided strategic guidance and documentation improving team code review processes by 20%.

SKILLS

Google Cloud Platform Google Kubernetes Engine
Google App Engine Docker Terraform Cloud Security

EDUCATION

Bachelor of Science in Computer Science

University of Texas at Austin

01/2014 - 01/2017 Austin, TX

PROJECTS

Open Source Kubernetes Deployment Tool

Developed a seamless deployment tool for Kubernetes projects, enhancing user experience.
<https://github.com/danderson/k8s-tool>

Optimized Cloud Cost Management App

Created an application to optimize and reduce cloud costs by 25%.
<https://github.com/danderson/cloud-cost-app>

KEY ACHIEVEMENTS

Enhanced Client SLA Adherence

Led a project that increased SLA adherence by over 40% using innovative Google Cloud solutions.

System Performance Migration

Executed a Google Cloud Platform migration improving system performance by 50% across multiple client systems.

Data Protection Compliance

Improved cloud security measures resulting in a 25% increase in data protection compliance rates.

Team Capability Growth

Facilitated workshops and increased team proficiency in Google Cloud technologies by 45%.

TRAINING / COURSES

Google Cloud Certified Professional Cloud Architect

Google Cloud Learning, obtained in 2024

Certified Kubernetes Administrator (CKA)

The Linux Foundation, obtained in 2023
